1. Conference Termed Success

██████████ held at ██████████ and ██████████ Headquarters the week ending 5 October, was judged a great success by all concerned. The sessions were highlighted by a meeting with the DCI during which he conveyed his continuing personal interest in the security process, particularly as it relates to the industrial arena. A new concept, in which agents who had served in the various ██████████ and had returned to Headquarters shared their experiences - both positive and negative - with the ██████████, was found to be very useful, and resulted in a lively and productive exchange. (U/AIUO)

2. Industrial Security Seminar

The second Industrial Security Seminar also concluded this week. The sessions, which brought together over 60 security officers from private industry and their Government counterparts, impressed all participants with the frank exchange of viewpoints and constructive, informal dialogues which took place. The DCI, who addressed the seminar, restated his support of the conference concept and remarked that he hopes to see it repeated. (U/AIUO)

The Director of Security noted that Security has earned a reputation for caring and for helping people within the Agency. He asked that all
